**TRIMMER TIP**

Kee R & D suggest when installing the back glass in a VW convertible, place a string around the rubber window gasket. In order to protect your fingers use the tip of a caulking tube and feed the string through. This will help ease the installation.

**BLEM CONVERTIBLE TOPS**

**WE GOT A DEAL FOR YOU!!!**

We have some convertible tops in stock that have an appearance flaw which prevents us from selling them as first quality merchandise. These Blems are really very good and are being sold for an incredibly low price. Perfect for car dealers and people who are bargain shopping. Ask your customer service representative for details!!
