## "Custom Quality at a Fair Price"

This has been our Family's motto since 1960. We continue this tradition by producing replacement convertible tops not only with the original details from the O.E. manufacturer, but also, by producing "Custom Tops by Electron". Our custom tops can be modified to your specifications and be produced in many unique, less conventional materials or colors; doing our best to accommodate any needs or desires your customer may have in order to make their top unique while maintaining our commitment to ... "Custom Quality *Tops* at a Fair Price".

## May 2019 Happy Mothers Day

May is a special time to honor all Mothers. Mothers are angels and ours was no exception. She was always there for us and never asked us for anything in return. This month's "Keep in Touch" is dedicated to all Moms for their unselfishness and loving ways. Although our Mom is no longer with us (2014), her love and affection; which she gave so freely, is a constant reminder of the incredible person she was.

### Thanks Mom

A Mother like mine,  
is one of a kind.  
My mentor, my idol and friend.

A loving hand when I'm fearful,  
a supportive shoulder when I'm tearful.  
A strong foundation for me.

She takes care of me when I'm sick  
and tolerates me when I'm thick.  
She makes me feel special inside.

As a child:  
She was always there to play,  
if I had no one else that day,  
but stood back when my friends were around.

I always had homemade lunch,  
the things I usually liked a bunch,  
except cream cheese on canned date bread.

Although the other kids had Cheetos,  
potato chips or Fritos.  
I had bananas and pears.

It didn't give me much to trade,  
the homemade lunches Mom always made,  
but they were healthy, nutritious and natural.

I didn't have much they wanted,  
a peach wasn't much to be flaunted.  
against twinkies, chocolate or cake.

But a healthy lunch was prepared,  
by someone who really cared,  
about the well being...of her little girl.

## "Keep in Touch!"

### Dinner

Mom made me dinner every night,  
I'd try to hide vegetables from her sight,  
but she'd find them and give me some more.

She insisted "Eat it!" now and then,  
"Throw it up, and you'll eat it again!"  
when lamb was making me gag.

But I always got dessert,  
even when she was a lil' bit curt  
about finishing everything on my plate.

A thankless job  
And when I was quite young,  
everything always got done...  
by you know;  
the Mom of the house.

If I had known then,  
how much work there had been,  
I might have helped more...without all the fuss.

I might have been more persistent,  
and not so resistant,  
to lift...a hand...to help.

But Mom, you always said,  
"When you have your own bed!  
It'll be hard work...24 hours a day."

It's a thankless job to do,  
clean dishes, clothes and bathrooms too!  
For those, who really don't notice.

But I'm here to say today,  
on your very special day.  
"Thank you Mom for all that you've done!"  
Kimmy 1997

Mom celebrated her 92nd Birthday (numerous times) in August 2014 and then passed away quietly a week later. We could not have been more thankful to have had her for our Mother. She lived a blessed life and was a wonderful example of a fabulous Mother and selfless human being. She is dearly missed.
