

"Constitution Day and Constitution Week" **September 17, 2019**

Constitution Day, previously known as Citizens Day, was established on August 2, 1956 by President Dwight D. Eisenhower, for the purpose of commemorating the adoption and signing of the United States Constitution (Sept. 17, 1787). In 2004 a law was put forth mandating educational institutions, that receive federal funding, to hold educational programs for their students for the sole purpose of teaching them about the Constitution. This incredibly thoughtful and insightful document is the foundation of our country and our American way. It is a document like no other ever seen before and it is truly remarkable. The integrity and forethought provided by our founding fathers has survived for 230 years as one of the oldest surviving forms of democracy to date. The participation, deliberation and prudence of its authors; 39 brave men (delegates), is impressive and all during tumultuous times; far beyond our current imagination. The conversations between them, during the drafting of our most treasured document, are said to have been contentious and fiery; yet they were able to persevere and forge a document that is still relevant today:

Amendment 1: Freedom of Speech and Expression

"Freedom of Speech and Expression" is our First Amendment and for good reason. The ability for persons to be free and to say and express what they want, without impairment, is primarily what separates our free society from one that is communistic, fascist and tyrannical. This amendment gives us all privilege not because of our financial status or heritage but because we are Americans and have been born with God given rights and the freedom to say what we choose ... whether it is received well or not. Our rights are precious and fragile, especially when we lose sight of their power and importance. When we start dictating to others what is acceptable speech and what is not (political correctness for example) we are no longer a Republic. We can disagree with what is being said but must have the wisdom to realize the importance of respecting a persons right to say it. It is no ones privilege in this country to prevent, obstruct or dictate another's speech of any kind; even if you deem it detestable. Who should raise a hand to silence ones speech should also raise a hand to their own mouth, as restricting another's speech may someday cause to restrict their own.

Our United States Constitution is a living document that represents the desires of so many to be free; so much so, that many are willing to leave everything they know and have, even endangering their lives, to make the journey to America. The French were so enamored of our democracy that they presented us with the Statue of Liberty; which stands as a constant reminder of the life, liberty and the pursuit of happiness.

For some, our Constitution is just a document, and they are willing to abuse it for insurrection; revealing their own selfishness and ignorance. For many others who understand its incredible value will defend its words for the sake of our "Liberty and Justice for All".

JULY 2019

**"Celebrating 243 years of Freedom from a
Tyrannical Government"**

Sometimes WE get inundated with updates, price increases or new information. Time doesn't always allow us the opportunity to gracefully compose this information, so ... here it is ... "CLEAR, CONCISE & TO THE POINT."

Mistake in our catalog

We have a mistake in our 2018-19 catalog;
ET2490 glass has a brass zipper; our catalog says coil.

Special Materials

OE18 White on Tan is changing to SP18. We are having this material specially run which comes at a higher price. Many of the old vinyls will have to be specially run so they can still be available to the Upholstery Industry for the classic cars.

New Top Pattern

GM3770 top - We have developed new tops and glasses that will eliminate the rear glass window issues previously caused by our universal glass; described on page 15 of our catalog. The previous issue was, that our regular GM3070 and GM3660 tops did not cover the ears and the upper support of the universal glass which would then show from the outside of the car. This also forced us to make our glass assembly all out of the same material as the top, which often was costly. We now have a top that is larger and will make for a nicer looking top without the previously mentioned issue; the glass will be less costly as well, because we only need to match the bottom strip.

1961-64 GM3080 will fit all full sized GM vehicles and a ET1750 Universal glass.
(replaces GM3070 top with ET1730 Universal glass)

1966-67 GM3770 will fit all mid sized GM vehicles and a ET1740 Universal glass.
(replaces GM3660 top with ET1720 Universal glass)

Of course when a vinyl window is involved please continue to use GM3070 tops and GM3660 tops for the above mentioned vehicles.

Please make changes to your catalog and as always, thank you for your continued support. Please call us if you have additional questions.

"Just a Thought"

"Socialism would destroy civil society and strip us of our God given rights which the constitution provides."
